Key Skills

- Strong desire for expansion of skill-set in achieving individual and team success in a fast-paced working environment.
- Strong ability to present highly detailed and informative reports, technical documents and work.
- Excellent communication skills with the ability to effectively communicate with diverse groups.
- Self-motivated, time managed, and organized individual that is able to work individually and flexibly in teams with minimal supervision.
- Detailed-oriented, goal-oriented, innovative, and ambitious individual that is committed to delivering high quality results.
- Highly critical thinker with effective researching, problem solving and communication abilities proven through experience.
- A hardworking individual that is willing to learn new skills and can quickly grasp new concepts.

Technical Skills

- Dedicated in maintaining up-to-date knowledge in best Information Technology and Software Development practices.
- Obtained knowledge in the Software Development Life Cycle and creation of vigorous algorithm test cases.
- Knowledgeable in Computer Science fundamentals such as data structures, algorithm design, complexity analysis, computer architecture, testing, and debugging.
- Exposure to Object-Oriented Design such as UML and design patterns.
- Experienced in Active Directory and Exchange management through both the GUI and PowerShell CLI.
- **Languages:** Scheme, Python (Beginner), C, C++, SQL, MATLAB, Bash, PowerShell, HTML/CSS (Beginner), Swift (Beginner)
- **Operating Systems:** Microsoft Windows, Mac OS, Unix, Android, iOS
- **Services:** Avaya Telephony, Active Directory/Exchange, Blackberry Enterprise Server, Microsoft Office/Visio, Thomson Reuters Eikon, GitHub

Experience

Regional Municipality of Peel

Brampton, Canada

IT INFRASTRUCTURE ANALYST

Sept. - Dec. 2016, Jan. - Apr. 2016

- Developed efficient and effective algorithms in PowerShell to automate and solve complex tasks.
- Assisted with server maintenance via routine patches, switch configurations and Avaya configurations.
- Provide quick and effective troubleshooting solutions to resolve client computer related issues.
- Maintained employee domain accounts within the corporate network via Active Directory and Exchange.
- Automated the migration of local users, mailboxes and distribution lists to Microsoft's Office 365 platform via PowerShell scripts.
- Gained a basic understanding in switching and networking methodologies.

Regional Municipality of Peel

Brampton, Canada

IT INFRASTRUCTURE ANALYST

May - Sept. 2015, Aug. - Dec. 2014

- Proactively improved the efficiency of Active Directory and Exchange commands by PowerShell scripting.
- Assisted in the configuration of many applications such as the Open Text Document Server.
- Effectively communicated and coordinated with third-party vendors to resolve issues within the corporation.
- Gained knowledge in Active Directory user and group management.

Regional Municipality of Peel

Brampton, Canada

IT INFRASTRUCTURE ANALYST

Jan. - Apr. 2014, May - Aug. 2013

- Developed clear, detailed and effective documentation for software and hardware configuration.
- Reviewed all infrastructure documents to ensure clarity, accuracy and organization.
- Managed supplier/vendor relationships to successfully replace defective units in the organization.
- Assisted in the management and addition of servers and switches onto a monitoring service, ipMonitor.
- Developed an understanding in the Linux Command Line Interface and Windows PowerShell.

Projects

Peel Location Application

Mar. 2016 - Present

- iOS application developed with Apple's created Swift language.
- Database application that hosts important locations around Brampton, Caledon and Mississauga.
- Pinpoints each location using Apple's Mapkit Framework.

Active Directory Management Tool

Feb. - Mar 2016

- Windows Application Tool for servers; coded in PowerShell.
- Allows the user to retrieve and modify network accounts within the organization.
- Properties displayed include display name, title, description, email, phone, home drive, organizational unit, account expiry, Sam Account name, and extension attributes.
- Back-end code that connects to a domain controller and displays the information neatly in a Graphical User Interface.

Quadris

Aug. 2014

- Linux command line game implemented with X-11 graphics and Object-Oriented Programming (OOP) design techniques in C++.
- Next block based on a random number generator that assign probabilities based on the current level.
- Mimics the features of the well-known game Tetris; features include block movement, level up and score.
- Additional features include life saver and cheats which are enabled through the score deduction system.

Bash Testing Script

Apr. 2014

- Automated scripting tool developed to test C++ programs with the use of input and output files.
- Primary usage was to test program outputs and the expected output with many vigorous testing conditions.

Education

University of Waterloo

Waterloo, Canada

BACHELOR OF COMPUTING AND FINANCIAL MANAGEMENT

Sept. 2012 - Jun. 2017

With Distinction – Dean's Honours List

Awards & Achievements

2013 - 2017	Dean's Honour List , University of Waterloo	<i>Waterloo, Canada</i>
2013	University of Waterloo Retirees' Award , University of Waterloo	<i>Waterloo, Canada</i>
2012	Merit Entrance Scholarship , University of Waterloo	<i>Waterloo, Canada</i>
2012	Ontario Scholar Award , Brampton Centennial Secondary School	<i>Brampton, Canada</i>
2012	Achievement in French Studies , Brampton Centennial Secondary School	<i>Brampton, Canada</i>
